# Instructions for Completing the Authorization for Personal Services

## 1. Purpose

This form is required for authorization to engage and pay for personal services, consulting services, guest lecturers, certain continuing education instruction and other temporary services to an individual. An approved copy of this form must be submitted with a local voucher or time sheet to generate payment.

## 2. Instructions

### Nature of Service

- Contracted Services-defined as work performing a study or providing advisory services to a department.
- Guest Lecturers-A guest speaker at lectures, seminars, colloquia or similar events;
- Continuing Education Instruction; and
- Other Personal Services-includes services such as setting up a network facility, developing a database.

### Status of Proposed Provider

If the individual is already employed with the University the "employee" category must be selected. If not, the Employee/Independent Contractor Classification Checklist portion of the form must be filled out to determine whether the individual should be treated as an employee or independent contractor. This is necessary to comply with Internal Revenue Service guidelines.

Pursuant to state law, individuals who have been employed by the University within the prior 12 months must be treated as an employee for payment purposes, not as an independent contractor.

**Generally if the service period is for 30 days or more, the status is that of an employee and the individual should be appointed via an Appointment Action form.**

**Description of Services** - provide a complete description of the service to be provided.

**Location of Services** — where will the services be performed

**Qualifications** - Attach vita/resume or provide a statement of qualifications if status is that of a current University employee.

### Employment Status

Indicate appropriate category. Arrangements with employees of other University of Texas System components will require a written statement of approval from the President of the other institution. Such requests should be submitted to the Office of the President at least 30 days prior to the date services are needed to provide time for that office to initiate appropriate communication with the other institution.

### Employee/Independent Contractor Classification Checklist

Follow the instructions in these questions carefully to determine whether the services should be considered employee or independent contractor. It is essential that due care be used in answering these questions.

Note that if the determination is that of an employee, a W-4 Form and 1-9 paperwork must be filled out in the Human Resources Office. If the determination is that of an independent contractor, a Payee Identification Form (PIF) must be on file in the Purchasing office before payment may be made.

Travel expenses may be reimbursed for Guest Lecturers or all contracted services. Original receipts must be submitted for reimbursement.

### Terms and Conditions

This section must be reviewed by the contractor agreeing to the terms as outlined. The signature indicating agreement to the terms and conditions is located on the front page of the APS form.

## 3. To Generate Payment

If the provider status is that of an employee, submit a copy of the approved APS form with a contracted services time sheet (OV7) to the Payroll Office to generate payment. The department will be charged for social security, unemployment compensation, worker's compensation and, if the employee is eligible, retirement.

If the provider status is that of an independent contractor, upon completion of the work, submit a local voucher (VP2) with the approved APS form to the Payroll Office to generate payment.

## 4. Payments to Current University Employees

Normally, supplemental payments for services will not be paid to University staff in their "home" department unless the payment is for overtime. However, on occasion University employees are hired in other departments to provide a service. This form should be used to obtain approval for such service. However, the work performed must be completely outside the scope of their normal job duties. Non-exempt employees who are performing similar work in another department must be paid time and a half and payment must be generated in accordance with the approval and payment process of overtime.
